Signatures of all parties are needed to indicate that each agrees to be considered for an apartment/townhouse if your group has someone studying abroad for either the fall/spring semester for the 2007-2008 academic year. Co-op housing helps "student A" to "hold" a room for one semester by arranging with "student B" to occupy the room during "student A's" educational leave/abroad time. If "student B" decides not to go abroad in the spring, then "student A" will have to make other arrangements. The 50% rule applies: No more than 50% of the housing unit can be involved with a co-op. All students are guaranteed a bed.
