Program Overview
The practice of Business Analytics is defined as continuous interactive exploration and investigation of business performance to gain insight and drive action by using data and statistical methods. Many industries are in need of professionals who can take on positions of responsibility for collecting, analyzing, and interpreting data in order to drive business strategy.

The Master of Science in Business Analytics (MSBA) program develops students’ critical skills in data and model-driven management decision-making in the context of a company’s strategic vision. The program begins each year in September and is designed to be completed either in one year’s time (full-time) or over two years (part-time). Students may opt to use their elective courses to earn a specialization that is tailored to their career interests. Specializations include Marketing Analytics, Healthcare, and, for those who have an undergraduate degree in Accounting or the equivalent, Accounting.

Coursework
The curriculum includes 30 credits of coursework consisting of 10, three-credit courses (seven required courses and three electives). Students are strongly encouraged to use the three electives to specialize in a specific area such as marketing or finance. It is possible to receive a marketing analytics concentration within the MSBA degree.

Prerequisite Courses (6 Credits)
- Applied Business Statistics
- Business Operations

Required Courses (21 Credits)
- Python for Business Analytics
- Databases for Business Analytics
- Business Forecasting and Predictive Analytics
- Business Model Optimization
- Business Intelligence
- Data Mining
- Capstone: Business Analytics Applications

Elective Courses (9 Credits)
- Marketing Analytics Specialization
- Accounting Specialization
- Healthcare Specialization

Admission Requirements
Applicants must hold a bachelor’s degree or MBA from a regionally accredited college or university (or the international equivalent) and have adequate background in the areas of College Math (preferably Calculus) and Statistics.

Admission Process
Applications to the graduate program are accepted on a rolling basis and require the following:
- A completed online graduate application at ga.fairfield.edu/apply
- A non-refundable $60 application fee
- A professional resume
- A personal statement approximately one page including reasons for pursuing the program and career objectives
- Official transcripts from all universities and colleges attended. (All foreign transcripts must be evaluated by an approved evaluating service)
- Two letters of recommendation
- Official score for the Graduate Management Admission Test (GMAT). The Graduate Record Examinations (GRE) can be substituted for the GMAT. For information regarding our GMAT/GRE waiver policy, please contact Rev. Gregory Konz, S.J. at gkonz@fairfield.edu
- All international students whose native language is not English must demonstrate proficiency in the English language by taking either the TOEFL or IELTS exam. A TOEFL composite score of 80 or an IELTS score of 6.5 is strongly recommended.

For more information, please contact Assistant Dean of Graduate Programs, Leanne De Los Santos, at ldelossantos@fairfield.edu or 203-254-4000, ext. 3219, or Program Director Philip Maymin, PhD, at pmaymin@fairfield.edu or 203-254-4000, ext. 3052. Visit fairfield.edu/dolan to learn more.
