1. Instructions

*Staff recommends using Mozilla Firefox or Google Chrome as your browser for filling out this report.

Before you begin, please be sure to download and read the instructions of the Annual Report Guide.

This is the COAMFTE Annual Report. Programs should submit this completed form on or before the program's noted Annual Report deadline. All accredited programs must demonstrate continued compliance with the COAMFTE Student Achievement Criteria through the submission of an Annual Report.

Please note that institutions with multiple accredited degree programs (e.g. masters and doctoral program) will need to complete a separate Annual Report form for each program.

Only programs that advertise full-time and part-time tracks to their prospective students are required to report on separate tracks in the Annual Report form. Programs that have students that move between full-time and part-time tracks can report on a single track.

Optional questions have been marked as optional, ALL other questions are required and must be completed according to form instructions before submission.

You will be able to start your form and complete it at another time by utilizing the "save and continue" feature located at the top of each page starting with the second page. A copy of your submission will be sent to you after completion for your records.

Please provide any contextual information related to your response above. (enter "n/a" if you do not need to provide any contextual information)

Students in our program are not enrolled as cohorts, therefore they are free to begin in the fall, spring or summer. Admissions interviews are held in the Fall and Spring Semesters. Students who are accepted in the Spring are encouraged to begin in the Summer Semester but are also able to begin the following Fall.

4. Faculty Contact Information

Programs and their faculty are two of COAMFTE’s key stakeholders. In order to be as transparent with all stakeholders as possible and communicate important updates, actions, etc. we would like to collect contact information on the core faculty that make up the COAMFTE community of accredited programs. The information gathered in this form will not be shared with any outside party and will only be used by COAMFTE.

Please complete each item noted below for each core faculty member in your program (including the Program Director). You do not need to supply information for adjunct faculty.

The survey will display a blank question for additional faculty members after the preceding question is answered.

5. Program Demographics
On this page the program will be asked to report on certain demographics of the program. Please note that the Commission collects the following information to report certain diversity data on accredited programs to the public. The Commission understands that diversity is represented in programs in a variety of ways in addition to gender and ethnicity which must be reported on below. Programs are encouraged to review Eligibility Criterion H of the COAMFTE Accreditation Standards Version 12 for additional information on COAMFTE accreditation and diversity.

Please use this section to provide additional diversity information, such as social/cultural/gender identities represented in your program, that are not sufficiently reflected in the options above (optional).

Some aspects of diversity that are not represented in the above categories include the representation of the LGBTQIA+ community.

6. Graduate Data by Calendar Year

The following is information that is collected by calendar year in the program. The data reported by calendar year will provide programs with context and a point of comparison for where their program fits. This data will also allow COAMFTE and COAMFTE programs to track the impact of COAMFTE graduates on the MFT field.

In the table below, please complete the required information.

7. Maintenance Criterion A: Ongoing Fiscal and Physical Resources

**Maintenance Criterion A: Ongoing Fiscal and Physical Resources**

The program provides evidence annually of financial viability and verifies that fiscal and physical resources, technological resources, instructional and clinical resources, academic resources, and student support services remain sufficient to enable the program to achieve its outcome-based education framework.

Fiscal and Physical Resources - the monetary, personnel, and space needed to operate and implement the program. Fiscal Resources include revenue streams and operating budgets that sustain program stability and function. Physical Resources include administrative and instructional space. Examples of physical space include but are not limited to a training clinic, research labs, smart classrooms, audiovisual equipment, computers, etc.

Technological Resources - resources used to deliver instruction to students and/or facilitate and support a program’s data analysis and collection processes. The technologies may include: a) the internet; b) one-way and two-way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, wireless communications devices; c) audio conferencing; d) video cassettes, DVDs, and CD-ROMs, if the cassettes, DVDs, or CD-ROMs are used in a course in conjunction with any of the technologies listed in (a) – (c) or software and learning management systems.

Instructional and Clinical Resources - tools or services, which assist faculty in successfully teaching the curriculum and practice component. Clinical Resources are tools or services, which assist faculty or supervisors in successfully providing all aspects of clinical training. These include but are not limited to a clinic, clientele, technological resources, administrative assistance, and staff. Instructional resources are tools or services that assist faculty in optimally teaching their courses. These include but are not limited to library assistance, library sources, computer access, teaching assistants and technological resources.

Academic Resources - tools or services available to students to assist them in satisfying the requirements of the program. Examples include but are not limited to library facilities, writing centers, technological support, financial aid offices, student counseling services, grievance offices.

Student Support Services - services available to students that facilitate and support a student’s ability to successfully achieve the program’s educational goals. Examples of student support services include but are not limited to: The Office of Disability, Counseling Services, Academic Advisement, Financial Aid Office, Office of Diversity and International Services, etc.

Does the following resource area remain sufficient to achieve the program’s mission, goals and outcome-based education framework?

Provide a letter from the institutional administrator as evidence of financial viability. The letter must:
be on the institution’s letter head
contain a signature of the institutional administrator with direct oversight of the program's budget (ex. Department Chair, Dean, Provost)
indicate that there is support from the institution that resources are in place for the MFT program

8. SAC Data Disclosure
Programs are required to publish data on all of the required Student Achievement Criteria set by the Commission per cohort on an annual basis on the landing page of their program’s website.

**Masters Programs:** SAC I, II, III
**Doctoral Programs:** SAC I, II
**Post-Degree Programs:** SAC I

**Instructions:**

Please download the [Student Achievement Criteria Data Disclosure Template](https://www.fairfield.edu/graduate-and-professional-studies/graduate-school-of-education-and-allied-professions/programs-and-certificates/graduate-programs/marriage-and-family-therapy/), and input your program’s Student Achievement data into the appropriate fields. Programs must display this table on their home page, or have a clearly displayed link which leads directly to the SAC table. In each case, the SAC information must be clearly labeled and identifiable on the program’s home page and provide all of the required information.

The data on the COAMFTE Student Achievement Criteria Data Disclosure Table that is published on the website annually needs to be consistent with the Student Achievement Criteria Data that is reported in the program’s Annual Report. Programs are encouraged to ensure consistency of data between the SAC table on their respective website and the data they include in their Annual Report to avoid additional reports.

Please refer to the instructions on the Student Data Disclosure template and the Annual Report Guide for more detailed instructions.

In the space below, place the URL link to the program’s landing/homepage.

1. If desired, please enter any contextual information related to your program’s SAC data disclosure.

Several years ago CTAMFT asked the Department of Public Health to interpret the existing statute to allow graduates to sit for the licensure exam as soon as their degrees are conferred. After sitting for the national exam, graduates must accrue 1,000 hours of direct client contact and 100 hours of supervision. This may account for why some graduates have taken their exams but remain unlicensed.

Also, it is expected for the data to be “zero” for the years when students are expected to be working toward completing the program.

9. **Maintenance Criterion B - SAC I - Graduation Rate - Full-Time**

The current COAMFTE Version 12 Standards Student Achievement Criteria are as follows:

<table>
<thead>
<tr>
<th>Program Type</th>
<th>Student Achievement Criteria I</th>
<th>Student Achievement Criteria II</th>
<th>Student Achievement Criteria III</th>
</tr>
</thead>
<tbody>
<tr>
<td>Master’s</td>
<td>Graduation Rates for advertised length of time* for each cohort</td>
<td>Job Placement Rates for each cohort</td>
<td>Licensure Exam Pass Rate: Programs must demonstrate 70% pass rate on the licensure MFT exam for each cohort</td>
</tr>
<tr>
<td>Doctoral</td>
<td>Graduation Rates for advertised length of time* for each cohort</td>
<td>Job Placement Rates for each cohort</td>
<td>Not required, but programs are encouraged to report on each cohort</td>
</tr>
<tr>
<td>Post-Degree Programs</td>
<td>Graduation Rates for advertised length of time* for each cohort</td>
<td>Not required, but programs are encouraged to report on each cohort</td>
<td>Not required, but programs are encouraged to report on each cohort</td>
</tr>
</tbody>
</table>

*Advertised length of time is how long the program is designed to complete as written.

Programs are required to publish data on all of the required Student Achievement Criteria set by the Commission per cohort on an annual basis on the landing page of their program’s website.

The only benchmark set by the Commission is in regards to the Licensure Exam Pass Rate for Master’s Programs. The other Student Achievement Criteria require data (rates per cohort) to be published.
Programs are only required to provide data on the past 10 years/cohorts or since the program was initially accredited, whichever is shorter. When reporting data, programs are encouraged to provide all the requested information below for each cohort.

The following information is collected by cohorts in the program. A cohort is defined as the students who entered the program between a given time period (example: the students in the 2010 – 2011 Cohort, entered their respective programs in the 2010 – 2011 school year).

Programs have four options to complete the tables below (these options will appear in a dropdown):

- **No Students**: Use ONLY when no students have enrolled in a given cohort
- **No Data**: Use when no data is available, this should **not** be used in place of zero
- **Not Accredited**: Use with cohorts that entered prior to your program being granted COAMFTE Accreditation that your program does not wish to provide data on.
- **Numbers**: 0-3,000

The form will display a dropdown of these options as you start typing, to quickly move from cell to cell tap the "tab" key twice once the value you would like to enter is selected in the dropdown.

Programs that enter "no data" for cells will need to provide contextual information regarding why "no data" was entered.

**Please enter the program’s initial date of accreditation.**

07/01/1995

**Full-Time Information**

**Full-Time - Program Completion (please note that ranges are NOT acceptable)**

**Advertised Length of Program Completion**: Advertised length of time is how long the program is designed to complete as written.

**Maximum Length of Program Completion**: Maximum length of time is the maximum allowable time in which a student could finish the program (i.e., if a student needed to take time off due to illness, family responsibilities, etc.).

- **Advertised Length of Program Completion (in years)**: 3
- **Maximum Length of Program Completion (in years)**: 6

**Length of time (in years) before a graduate can sit for the licensure exam in the state where the program is housed (if not applicable, please enter "n/a" and explain below).**

0

**Contextual information regarding the length of time before a graduate can sit for the licensure exam in the state where the program is housed (enter “n/a” if you do not need to provide any contextual information):**

In 2009 CTAMFT approached the CT DPH to change their interpretation of the statute to sit for the licensure exam immediately upon having their degrees conferred and before accruing 1000 required client contact hours. Now, most graduates exercise this option.

Below is the exam pass rate for your program's cohorts based on the information entered on the previous page. Please provide contextual information for any cohort that has a pass rate of lower than 70%. The contextual information should outline the specific reasons for the deficiency. Programs are required to specifically address each cohort and focus on specific students/graduates by providing reasons for their licensure exam failure. Do not provide generic reasons for overall performance, please provide specific information about each student by cohort.
