1. Not all Android phones have an eReader app pre-installed; we therefore recommend downloading and installing the free Prestigio Book Reader from the Google Play store (<u>https://play.google.com/store/apps/details?</u> id=com.prestigio.ereader&hl=en_US). Launch the app and when you reach the Welcome page, tap Skip in the lower right.

2. Once the app is installed, go to <u>fairfield.edu/ebook</u> and tap the **Download the eBook** link. Depending on how your phone is set up, the eBook will either open automatically or you will be asked which app you'd like to open it in (of course, you should choose Prestigio eReader).
