August 2020

Fairfield University Students and their parents/guardians,

On behalf of the men and women of the Fairfield Police Department, we would like to welcome you and your family to Fairfield University and its 200-acre campus situated in the Town of Fairfield, Connecticut.

The Fairfield Police Department is responsible for public safety and law enforcement within the Town of Fairfield. We work closely with Fairfield University Administration and the Public Safety Department on campus to ensure the safety of students and visitors to the campus and to the Town. We accomplish this by holding regular meetings to discuss issues of mutual concern, by conducting regular training events allowing our officers to work together with the University and sharing information to prepare, prevent and respond should the need arise. Fairfield Police Officers also participate in information sessions on campus to ensure students are armed with the needed information to protect themselves.

As Law Enforcement Officers, members of the Fairfield Police Department also strictly enforce the regulations of the Town as well as State laws, including alcohol statutes, illicit drug use, motor vehicle laws and other laws designed to keep the peace. Students should be aware of the regulations and laws, and they should properly abide by them to ensure their actions do not result in fines and/or arrests.

Finally, as parents ourselves we understand the emotions often experienced by both parents and students as they begin a new chapter in their lives. We at the Fairfield Police Department are here as a resource should the need arise. We encourage you to visit our website [FPDCT.COM](http://FPDCT.COM) to learn more about our Department and services and do not hesitate to contact us should the need arise.

Wishing you all a safe and successful year as a member of the Fairfield Community.

Sincerely,

Chris Lyddy, Chief of Police  
Fairfield Police Department  
203-254-4828
