7 Meals Weekly + \$600 Dining Dollars - \$3,600/semester

45 Block + \$225 Dining Dollars - \$850/semester

Meal plans are convenient, flexible, and loaded with options. Your meal plan includes meal exchange and dining dollars to use at all of the retail locations across campus with a range of menus and offerings.

Weekly Plans: These plans allow for the guest to 'swipe' into the Tully a specific number of times per week and come with dining dollars to be used at all retail locations. The 14 Meal plan is the default plan for for students in traditional housing, and you have the opportunity to upgrade for increased flexibility and options if desired.

Unlimited: Guests may enter the Tully as many times as they'd like throughout the day. The Tully offers a continuous dining experience featuring complete meal solutions or a quick snack.

Block Plans: Block plans give you a certain number of meals per semester at the Tully. The 65 block gives you 65 'swipes' into the Tully per semester and the 45 block gives you 45 'swipes' per semester.

Meal Exchange: A meal exchange is a 'swipe' that can be used to purchase a full meal solution at participating retail locations. This option provides increased flexibility in how meal plans can be used throughout the dining locations across campus.

NUTRITION

Our chefs and dietitians are here to help take the mystery out of healthy eating. We recognize and accommodate food allergies, preferences, and special dietary needs in a way that's personalized, sensitive and supportive. In fact, we pride ourselves on working with you to make sure you can find the food that fits your life.

SUSTAINABILITY

When it comes to reducing our environmental impact, we're focusing on addressing climate change. Reducing greenhouse gas emissions is our top priority. We place special emphasis on sourcing responsibly, operating efficiently, minimizing food waste and reducing packaging.

Through everyday actions, we bring innovative and efficient solutions to life.

We are passionately focused on improving our own operations, while offering expertise and practical solutions. But we don't stop there. We measure our impact and hold ourselves accountable to continuously improve.

We purchase local, seasonal and responsibly raised, grown and sourced products whenever possible. We firmly believe responsible sourcing has a direct impact on people, animals, and the environment. We engage suppliers and partners to source environmentally and socially responsible products.

We reduce food waste across our operations with the dual goals of conserving resources and keeping food out of landfills. Our efforts include back of house operational practices to reduce waste before it's generated, programs to help consumers decrease food waste, feeding those in need during instances of excess safe, unserved food, and finally implementing composting programs wherever possible.
