   **Cell Phone:**

2. **Major Field of Applicant(s):** (please use continuation sheet if necessary)

3. While all successful applications will shed greater light on the issue of sustainability/environmental issues, applicants are encouraged to think broadly and creatively about their proposals. For example, awards could be used to expand or modify an existing program, or create an entirely new program or event. Alternatively, applicants could seek funding for an environmental-related research project. A project might be done in conjunction with a faculty member as an Independent Study. Proposals that include cross school/college collaboration are encouraged and will be viewed favorably by the selection committee.
Type of Submission:  ____Research project
Type of Submission:  ____Cost savings to Fairfield University

7a. Brief Description of Project (200 words):

7b. Short Abstract (50 words):

8. Narrative Description of Project:

   On a separate sheet, describe the project in detail.

9. Project timeline:

   On a separate sheet, describe the timeline in detail.
10. How does your project fulfill the mission of Fairfield University regarding care for the environment?

11. Related Work by Applicant(s):

12. Resources (not funding) available to applicants contributing to the planning and execution of the project:

13. Description of Evaluation Procedure for Project:

On a separate sheet, describe your Evaluation Procedure in detail.

Applicants should build into their proposal a way to measure the effectiveness of their project in meeting the goals. There should be a statement of goals (hypothesis) and a plan to see how well or poorly they were met -- and if it is the latter, how might it have been made more effective? (We want you to try new things, but not to be discouraged if the project does not turn out exactly as you had hoped. We may sometimes learn a great deal from our mistakes.)
