PROGRAM DESCRIPTION
The Marion Peckham Egan School of Nursing and Health Studies offers an accelerated Bachelor of Science in Nursing (BSN) degree for individuals who hold a bachelor’s degree in a field other than nursing. The program begins in June and continues through graduation in August of the following year — a total of 15 months.

The Second Degree BSN Program is designed to draw on your prior education and experience while allowing you to earn a second bachelor’s degree in an accelerated format. This previous knowledge serves as a foundation for nursing courses and helps you develop the social awareness, critical thinking skills, aesthetic sensibility and values that prepare you to sit for the NCLEX licensing exam.
