MASTER OF BUSINESS ADMINISTRATION

PROGRAM DESCRIPTION

The Fairfield MBA empowers students to face the varied and ever-changing array of challenges that business presents and prepares them with the diverse skills required for leadership. It is a generalist degree, providing a broad foundation of knowledge and affording the opportunity to specialize in a functional area of business.

It prepares them for professional achievements that are equally diverse, including corporate management, entrepreneurial ventures, positions with government and non-profit organizations, and consulting careers. The formula score is the result of multiplying an applicant’s grade point average (GPA) by 200 and adding that product to his or her GMAT score. In most cases, this requires an undergraduate GPA of at least 3.00 accompanied by a GMAT score of at least 500.

MANDATORY IMMUNIZATIONS
Connecticut State law requires each full-time or matriculated student to provide proof of immunity or screening against measles, mumps, rubella, varicella (chicken pox), meningitis and tuberculosis. Certain exemptions based on age and housing status apply. Matriculating students are defined as those enrolled in a degree seeking program. More detailed information and the required downloadable forms are available online at www.fairfield.edu/immunization. Completed forms should be submitted directly to the Student Health Center. Although this is not required to complete an application, you must provide proof of immunity/screening prior to course registration. A graduate education can provide countless professional and personal rewards in the future. However, the costs associated with earning a master’s degree may be challenging. Many students need to look beyond their own financial resources or the resources of their employer for assistance. There are many ways to finance a graduate education, including graduate assistantships, federal direct loan programs and our Veterans Pride Program, which are all discussed at www.fairfield.edu/gradfa.
