Economics Department
Four-Year plan, Classroom to Career

1A. Freshman Year, Economics Department

☐ Academic Advising
Use your academic adviser and the peer advising program to explore Economics and other potential majors, minors, programs and courses, given your interest. What core courses fit best with your career goals? Work them into your schedule. Think about pursuing the more analytical; BS track, or the BA track which can lead to careers at NGOs.

☐ What to do with an Economics degree
Do some Internet research at sites like http://www.careerrookie.com/Article/CB-251-The-Real-World-What-can-you-do-with-an-economics-degree/

☐ Dream Job
What is your "dream job" after graduation? What are you passionate about? Talk to your faculty adviser and other mentors. As an Economics major, how can you use your time at Fairfield to prepare for it through class work, internships, volunteer activities, summer jobs, leadership positions with clubs and organizations, and other relevant out of class experiences?

☐ Economics Club
Come and talk to students with your interests. Hear from successful alums, talk to professors, and get some career advice. See the Department Chair for details.

☐ Student resources
Take a look at resources available for success in your Econ classes.

☐ Economics - Student Spotlight
Honor Society
Fairfield University hosts a chapter of Omicron Delta Epsilon, the international honor society for economists. Its purpose is to recognize outstanding achievement in the study of economics. Working with the Economics Club, ODE also supports on-campus activities that engage the community in conversations about important economic topics and trends, both in the academy and in the national and global marketplace. ODE membership is open to any student who is an economics major or minor, who has completed 12 credits in economics with a B average, and who has a B average overall. Students in ODE receive a certificate of membership, lifetime membership in the organization, and a one-year subscription to society's publication, The American Economist. Fairfield's economics department also awards honor cords at graduation to each member.

1B. Freshman Year, University wide

☐ Hear From The Experts
Attend lectures on campus and hear from professionals and experts in your field of interest. Start with the Open VISIONS Forum and look for other events listed in the university calendar. In choosing FYE events to attend, include those most related to career interests.
 blindly Seek Out As Many Experiences As Possible
Not sure of a career path? Use extracurricular activities to help you expand, or narrow, your choices.

blindly The Core: Start Exploring
Talk to your faculty adviser about how to choose core courses that will encourage you to explore new areas and supplement your areas of interest and career goals.

blindly Showcase Your Material
Start collecting materials you put in a portfolio to market yourself and help show your experience. Create a blog or e-portfolio to both present the work (newspaper stories, poetry, well-crafted essays, videos) and to offer reflections on them. Contact CAS Associate Dean Aaron Perkus for help in creating an e-portfolio.

blindly Discover your passion!
Take chances on different classes and majors. Find faculty members who can guide your journey here. Get plugged in and, along the way, discover what you are passionate about.

blindly Summer Jobs
Work with your faculty adviser to discuss options for a summer job that could give you experience and add content to your resume.

blindly Campus Clubs and Student Organizations
Invest your time in activities that give you experience in your field of interest and put you in touch with students who might have similar career interests.

blindly Study Abroad

blindly Work, Work, Work
Look for a relevant job on or off campus to gain work experience. Consider volunteer opportunities, often tied to your academic interest, to give you experience and provide information on potential careers, especially with non-profit organizations. Looks for summer internships and jobs so you can apply classroom lessons to the professional world.

blindly Living and Learning
Make plans for sophomore year to team up and network with other students who share your career interests.

blindly Lead On
Look for chances to begin building your leadership skills. Take advantage of New Student Programs that bridge the classroom with the residence halls. Network with students in your residence hall who are enrolled in the same Cornerstone classes and participate in the First Year Experience (FYE) program. This will help you to make friends who share your passions and interests.
Preparing for graduate school, early
A large percentage of Fairfield students further their academic careers after four years at Fairfield. Fairfield’s pre-law program has a full-four year agenda of recommended activities. For freshman year, interested students should concentrate on attaining high grades in your University Core classes; develop good study habits; attend St. Robert Bellarmine Society Events; and follow the Pre-Law website for events and tips on applying to law school. Talk to your academic adviser about preparing for graduate school options.

Ask A Librarian
The DiMenna-Nyselius Library has resources to help you to discover, begin and manage your career. If you would like assistance in using any of these resources, contact a librarian.

Start Career Planning, Now
Make an appointment with the Career Planning Center (CPC) to meet with staff, talk about your goals and aspirations, and how to best utilize your next four years of college. Read about jobs in which you might be interested. Attend Career Fairs and ask employers what they are looking for in new hires. Look at the CPC’s online Career Planning Advisor Videos and Research Tools.
2A. Sophomore Year, Economics Department

☐ **More Advising**
Use your faculty adviser and peer advising to choose the best courses, given your interest. Be prepared for your annual meetings.

☐ **Keep Dreaming**
after Fairfield? What would be your "dream job" – and how do you get there? Talk to your faculty adviser and other mentors: How can you use your remaining time at Fairfield to prepare for it?

☐ **Economics Club**
As you start courses in your major, come and talk to students with your interests. Hear from successful alums, talk to professors, and get some career advice. See the Department Chair for details

☐ **Economics Internships**
Talk to your faculty adviser and start planning now for potential internships. Think about "trying out" a career, gaining work experience, marketable skills, potential mentors and a competitive edge. Look for potential matches between an internship with your career. Recent graduates have interned at such companies as Peoples Bank, Southwest Connecticut Agency on Aging, Merrill Lynch, Salomon Smith Barney, and the Chamber of Commerce

☐ **Student resources**
Take a look at resources available for success in your Econ classes.

☐ **Line Up References**
or 3+ professors in Economics and elsewhere who might serve as professional references for you. Discuss your future plans with them and ask for guidance. Stay in touch with them so they can speak about your successes in an informed way.

☐ **Omicron Delta Epsilon**
Fairfield is a member of the international honor society for economists. Its purpose is to recognize outstanding achievement in the study of economics. Working with the Economics Club, ODE also supports on-campus activities that engage the community in conversations about important economic topics and trends, both in the academy and in the national and global marketplace. ODE membership is open to any student who is an economics major or minor, who has completed 12 credits in economics with a B average, and who has a B average overall. Students in ODE receive a certificate of membership, lifetime membership in the organization, and a one-year subscription to society's publication, *The American Economist*. Fairfield's economics department also awards honor cords at graduation to each member.

☐ **Honors Programs**
Qualified Economics students participate in the Honors Program at Fairfield University and. For students with an exceptional academic record of achievement, there is the opportunity to be elected to the country's premier honor society, Phi Beta Kappa.
2B. Sophomore year, University wide

- **Hear From The Best**
  Look for lectures on campus when professionals in your field come to speak and often meet with students.

- **Career Readiness**
  Want to get a jumpstart on your future? *Sophomore Success* is a series of casual dinners developed to help you figure out such questions as: Facebook, LinkedIn and Twitter – do they really matter? Will my posts impact my future? How do I write a resume? How can I make myself stand out in the job market? Should I study abroad? How do I get an internship? What about grad school? Should I do service? Have I really given enough thought to my major based on my career goals? Networking Skills? Business etiquette - what the heck is that? Students meet over dinner with Career Planning staffers and discuss topics. Look for sign-up information early in the year.

- **Yes, employers look at GPA**
  Keep your eye on the goal of academic excellence.

- **Leadership Skills**
  Consider a leadership role with a student club or organization to help give you leadership and management experience.

- **Service Learning Courses**
  Look for Fairfield courses that give you a chance to interact with the off-campus community, gain experience, and maybe pick up a resume credit.

- **The Study Abroad Fair**
  The Study Abroad Fair will give you tips to use in finalizing any travel plans for junior year. Talk to faculty and other students on how the experience could help further your career goals.

- **Build A Portfolio**
  Consider creating a blog or e-portfolio to collect materials that you can use to promote yourself in the future. [Build a blog](#).

- **Relevant Summer Job**
  Talk to faculty and Career Planning to increase your chances of securing a summertime job (after sophomore year) that is related to your career goal, can give you some experience, and serve as a credit on your resume. Use Facebook and LinkedIn to present yourself to the world in a professional manner.

- **Career Planning**
  Don't wait! Make another appointment with a Career Planning Center counselor. Consider taking a "self-assessment inventory" test to help you get a better handle on where your strengths might be directing you. Update your resume. Look for workshops that can sharpen skills in writing resumes, networking, and mock interviewing. Register with [Experience](#), Fairfield's online recruiting system, and get familiar with how it works. Students can search for
jobs, internships, information on career fairs, and submit resumes to jobs and internships of interest.

- **More Career Planning**
  Attend Career Fairs and ask employers what they are looking for in new hires. Make an appointment with the Career Planning Center to meet with staff and talk about your goals and aspirations. Look at their online Career Planning Advisor Videos. Look at the Research Tools for Careers.
3A. Junior Year, Economics Department

☐ Jobs, jobs, jobs
The majority of students majoring in economics find employment before graduation. Financial and service institutions have been the most popular sources of entry-level jobs. Other graduates have started out with hospital and government agencies, gone into teaching at primary and secondary levels, entered management-training programs at Fortune 500 firms, and continued their studies in graduate or professional schools, including business and law.

Talk to your faculty adviser about how to maximize your chances of getting such an opportunity.

☐ References
Look for three professors, in and out of the department, who can speak about your successes in an informed way.

☐ Supervised Research
Talk to favorite professors about possible supervised research projects you might do in your area of interest, in the summer or during the school year. On-campus summer housing is available.

☐ Graduate work
Some of our alumni pursue graduate work either in the law or economics. We have placed students in such graduate programs in economics as Boston College, Brown University, Duke University, Fordham University, John Hopkins University, University of Connecticut, University of Indiana, University of Iowa, University of North Carolina, University of Virginia, and the University of Wisconsin. Talk to your faculty adviser about your interests.

☐ Independent Studies
Interested in a research area but there is no course offered in the catalog? Talk to a faculty member or department chair about a possible independent study.

☐ Internship Plans
Talk to your faculty adviser about the two internships for credit that are allowed at Fairfield. Remember that summer jobs, not for credit, can be just as useful in gaining experience and building a resume.

☐ CAS Awards
Economics has department awards for outstanding students every spring; they are honored at the College of Arts and Sciences award night in April. Attend the event and look for projects that might earn you this honor. With your faculty adviser, gain experience in entering such a competition and learn how to effectively package and present your work-and yourself. Non-seniors are often singled out for their great work.
3B. Junior Year, University wide

- **Shadowing**
  Fairfield is expanding its program for students to shadow alumni, where the student can take an inside look at a career, get an overview of a company or industry, explore individual career options and goals, and receive advice from a professional. Students in biology and psychology are among those who benefitted in the past. Contact Alumni Relations.

- **Study Abroad**
  Use a Study Abroad trip to gain a cross-cultural perspective, move toward becoming a global citizen, and think more broadly about your studies and career possibilities.

- **Resumes**
  Continue to polish and hone your resume. What’s missing? How can you use your remaining time at Fairfield most effectively?

- **Working with professors**
  Talk to your academic adviser and other professors in your department about what else you can do to build on classroom learning.

- **Leadership**
  Gain management experience - and give something back - by taking as leadership position in a campus club or student organizations.

- **Networking**
  Begin networking by connecting with Alumni Career Services and its Fairfield Alumni Network (FAN) program. Look for relevant information in the Alumni Career Webinar Series, focusing on such issues as the job search and professional development. Look at the Fairfield Alumni groups on LinkedIn and join those that are relevant. Look at the Jobs Board and Internship Board.

- **RCADE workshops**
  These free, mini-courses can strengthen technical and computer skills. These days, to compete, you must be proficient in Excel, PowerPoint and Word, plus programs you might need for specialized jobs such as Photoshop and In Design. Beyond RCADE, how can you use any final elective courses to gain additional skills needed for your dream job?

- **Summer Jobs and Internships**
  Work with your professors to help find relevant summer jobs and internships that can give you more experience and add a credit to your resume.

- **Service Learning**
  To learn about paying careers with non-profit organizations, make room on your four-year course schedule for a Service Learning course.
Civic Engagement
As you add to your resume, what other opportunities can you choose to give you applied experience and civic engagement beyond the classroom? They might include summer jobs, internships, leadership roles in campus clubs, or mentoring other students. Work to become a leader and an explorer, through engagement with the broader community.

Hit The Library
The DiMenna-Nyselius Library has a large array of resources to help you to discover, begin and manage your career: If you would like assistance in using any of these resources, please contact a librarian.

Hear from the professionals
Attend lectures on campus when professionals in your field come to speak and often meet students. Start with the Open VISIONS Forum and other events at the Quick Center.

Leadership
Gain management experience - and give something back - by taking a leadership position in a campus club or student organization.

Your Portfolio
Consider creating a blog or e-portfolio to collect materials that you can use to promote yourself in the future. (Build a blog.)

Volunteer Opportunities
Look for a relevant job on campus to gain work experience. Consider volunteer opportunities, often tied to your academic interest, to give your experience and provide information on potential careers, especially with non-profit organizations.

Career Planning Counselor
Have a counselor review your updated resume to develop it further and add your summer activities. Upload your resume on Experience for summer internships. Practice interviewing techniques with Counselors and take advantage of Mock Interview opportunities with real employers. Attend workshops. Participate in the Career Fair so you can see what it is like, begin meeting employers and researching who you might want to work for.
4A. Senior Year, Economics Department

- **Capstone Courses/ Independent Study**
  Use the Capstone Course to integrate what you have learned, reflect upon how you have grown at Fairfield, and visualize where your path will lead you next. The course also is usually a chance to sharpen research skills, strengthen any Portfolio, and make fresh connections among courses and experiences.

- **Research**
  Start to narrow your interests and look for ways to use classwork, internships, summer work and potential independent studies to further your interest.

- **Line Up References**
  Finalize 3+ professors from Economics and elsewhere who might serve as professional references for you. Discuss your future plans with them and ask for guidance.

- **Final Internship**
  Use your final internship(s) to try out careers, sharpen your resume and cover letter, develop a portfolio, make contacts, and take classroom skills and apply them to the real world.

4B. Senior Year, University wide

- **Final Work With Career Planning**
  Fine-tune your resume by adding summer jobs and senior classes. Hone your interviewing techniques. Read the Experience calendar daily. Network with alumni through the Fairfield Alumni Network (FAN). Attend the fall and spring Career Fairs. Update your resume on Experience. Apply for specific jobs by uploading your resume to that job description. Participate in real interviews. Look at the employment information and online job board.

- **Learn While Doing**
  Look for learning opportunities where you also gain useful experience. They might include internships, Service Learning courses, volunteer positions, and campus leadership roles. Become a leader of a campus organization or club and gain management experience.

- **Preparing for law school and graduate programs**
  About half of CAS students further their academic careers after four years at Fairfield. Fairfield’s pre-law program has a full-four year agenda of recommended activities. For senior year, the program encourages interested students, in the summer before senior year, to narrow the list of law schools in which you are interested. Work on your personal statement and application. Line up your letters of recommendation from faculty members and others. Have your application and supporting materials ready by late summer of your Senior year and apply as early as possible. If you were unable to take the LSAT in June of your junior year, plan to take the October exam in the fall of your Senior year. Apply as soon as possible after getting your scores. Attend St. Robert Bellarmine Pre-Law Society Events. Let the Pre-Law Advisor know of your progress in getting accepted. Other students will be anxious to learn from your experience!

- **Research**
  Look for opportunities to publicly present your research at academic conferences or on-campus poster sessions.
Capstone? Internship?
How can you most effectively tie together what you have learned? Your final courses allow you to reflect upon how you have grown at Fairfield and where your path will lead you next.

Role Models
Look for lectures on campus when professionals in your field come to speak and often meet students. Start with the Open Visions Forum.

Technical Skills
Attend workshops (sponsored by RCADE and others) to strengthen technical and computer skills. How can you use your remaining courses to gain additional skills needed for your dream job?

Non-Profit Sector
Look for a relevant job on campus to gain work experience. Consider volunteer opportunities, often tied to your academic interest, to give your experience and provide information on potential careers, especially with non-profit organizations.

Library Help
The DiMenna-Nyselius Library has a large array of resources to help you to discover, begin and manage your career: If you would like assistance in using any of these resources, please contact a librarian.

Final Work With Career Planning
Fine-tune your resume by adding summer jobs and senior classes. Hone your interviewing techniques. Read the Experience calendar daily. Network with alumni through the Fairfield Alumni Network (FAN). Attend the fall and spring Career Fairs. Update your resume on Experience. Apply for specific jobs by uploading your resume to that job description. Participate in real interviews. Look at the employment information and online job board.
