FAIRFIELD UNIVERSITY
GRADUATE PROGRAMS

PROGRAM DESCRIPTION
The Doctor of Nursing Practice (DNP) in Nurse Anesthesia concentration, offered in conjunction with Bridgeport Hospital and Bridgeport Anesthesia Associates, is a full-time, partially frontloaded program, designed to meet the practice doctorate standards set forth by the Council on Accreditation of Nurse Anesthesia Educational Programs. Students who complete the full-time, 36-month program earn a Doctor of Nursing Practice degree from Fairfield University and a certificate in Nurse Anesthesia from Bridgeport Hospital.

The program prepares students as expert clinicians for every stage and in every setting in which anesthesia is delivered to patients. Because nurse anesthetists are responsible for direct patient care, students gain hands-on experience in a variety of regional (neuraxial and peripheral blocks) and general anesthesia techniques under the supervision of CRNA and M.D. faculty. Nurse anesthesia students work not only on “routine” surgical cases, they enhance their preparation by participating in trauma, major burn, and high-risk obstetrical cases.

In addition to becoming expert clinicians, graduates of the DNP program will be healthcare leaders who will care for a cohort of patients within their specialty, while using a cross-population perspective to assess, manage and evaluate common problems. Graduates will apply knowledge about organizations, business management, information technology and policy-making to improve systems of healthcare delivery. They are prepared to assume a variety of leadership roles including executive positions in healthcare organizations, directors of clinical programs and university based faculty positions with a clinical focus.

COURSE OF STUDY
The Nurse Anesthesia program starts in May of each year and operates continuously, independent of the University’s academic calendar. After a year of academics, students begin their clinical orientation and clinical practica. They also continue to take required academic courses, including their DNP immersion, until the May graduation date. Upon graduation, students are eligible to sit for the certification examination administered by the Council on Certification of Nurse Anesthetists. Successful completion of this examination allows the new graduate to practice as a nurse anesthetist. Students are required to complete 75 credits for the DNP.

CURRICULUM
FOUNDATION CORE
• Epidemiology and Biostatistics
• Research Methods for Evidence Based Practice
• Advanced Healthcare Policy
• Advanced Nursing Roles and Reflective Practice

ADVANCED PRACTICE CORE
• Advanced Health Assessment
• Advanced Pathophysiology for Anesthesia Practice
• Advanced Pharmacology

DNP CORE
• Clinical Prevention and Strategies for Change
• Research Translation for Clinical Practice
• Finance & Quality Management in Health Care Organizations
• Information Technology for Healthcare Improvement
• Leadership & Interprofessional Collaboration
• DNP Immersion
• DNP Seminar I & II

ADVANCED PRACTICE SPECIALTY: NURSE ANESTHESIA
• Human Anatomy & Physiology for Nurse Anesthetists
• Pharmacologic Strategies in Anesthesia Practice
• Principles of Nurse Anesthesia Practice I, II and III
• Chemistry & Physics for Nurse Anesthetists
• Regional Anesthesia & Pain Management in Clinical Practice
• Clinical Orientation
• Clinical Practicum I
• Clinical Practicum II
• Clinical Practicum III
• Clinical Practicum IV
• Clinical Correlation Conference
• Clinical Practicum V

* A minimum of 2,000 clinical practice hours and 5 immersion credits are required for the DNP (1 credit=50 hours).
PRACTICA

Nurse Anesthesia students spend 21 months in the clinical arena working side-by-side with staff CRNAs and anesthesiologists. As students progress through the clinical practicum experiences, they are given more autonomy in practice. By graduation, students are working one-on-one with attending physicians, participating in all aspects of anesthesia care as members of the anesthesia care team. Clinical requirements average 32-40 hours of operating room time per week and by graduation exceed the minimum clinical requirements set forth by the Council on Accreditation of Nurse Anesthesia Educational Programs (COA).

PROFESSIONAL PATHWAYS

After several years of experience, some CRNAs choose to establish their own anesthesia groups and contract their services out to surgeons and office-based practice situations. CRNAs can become involved in education and research at all levels, including clinical and didactic instruction.

NURSE ANESTHESIA PROGRAM DIRECTOR

Nancy Moriber, Ph.D., CRNA, APRN
Phone: 203-254-4000, ext. 3445
E-mail: nmoriber@fairfield.edu
Bridgeport Hospital phone: 203-384-3054

Dr. Nancy Moriber serves as the faculty advisor for the Nurse Anesthetist program and is the appropriate person to contact with questions or to learn more.

For a complete faculty listing, see www.fairfield.edu/sonfaculty.

ADMISSION REQUIREMENTS

Applicants for the DNP must demonstrate the following:

- A bachelor’s degree in nursing from a regionally accredited college or university (or the international equivalent).
- A quality point average of 3.2 or higher with a science GPA of 3.2.
- Two semesters of biology, at least one semester of chemistry, one semester of microbiology, and one semester of college math. Physics is strongly recommended. Anatomy and Physiology meets the Biology requirement.
- Registered Nurse license to practice in the United States at the time of application. A Connecticut RN license will be required upon admission.
- A minimum of one year’s experience as a RN in a current critical care setting is required. Council on Accreditation (COA) Definition of “Critical care Experience”: Critical care experience must be obtained in a critical care area within the United States, its territories or a US military hospital outside of the United States. During this experience, the registered professional nurse has developed critical decision making and psychomotor skills, competency in patient assessment, and the ability to use and interpret advanced monitoring techniques. A critical care area is defined as one where, on a routine basis, the registered professional nurse manages one or more of the following: invasive hemodynamic monitors (e.g., pulmonary artery, central venous pressure, and arterial catheters), cardiac assist devices, mechanical ventilation, and vasoactive infusions. Examples of critical care units may include but are not limited to: surgical intensive care, cardiothoracic intensive care, coronary intensive care, medical intensive care, pediatric intensive care, and neonatal intensive care. Those who have experiences in other areas may be considered provided they can demonstrate competence with managing unstable patients, invasive monitoring, ventilators, and critical care pharmacology. The one year of critical care experience must be current.
- Current American Heart Association or American Red Cross BCLS, ACLS & PALS certification (must be maintained while in the program).
- CCRN certification is required.

FORMAL ADMISSION PROCESS

This cohort program begins once each year in May. Application deadline: August 1st

Applications must be complete with all documents received by date of deadline.

Students seeking admission must submit the following online:

1. A completed application. (Apply online at www.fairfield.edu/sonapp.)
2. A non-refundable $60 application fee.
3. A professional résumé.
4. Official transcripts verifying completion of an undergraduate degree. All foreign transcripts must be evaluated by an approved evaluating service which can be found at www.fairfield.edu/eval.
5. Two (2) recommendations, including one from your current supervisor and another from an individual who can assess your clinical expertise in an acute care setting. Completed online.
6. A three (3) page, double-spaced personal statement stating your career goals and future contributions to the profession of nurse anesthesia.
7. Copy of current RN license; licensure to practice in the state of Connecticut will be required upon admission.
8. CCRN certification.
9. All international students whose native language is not English must demonstrate proficiency in the English language by taking either TOEFL or IELTS exams. For admission to the graduate school, a TOEFL composite score of 550 for the paper test, 213 for the computer-based test, 80 on the internet-based test or an IELTS score of 6.5 is strongly recommended. Scores must be sent directly from the Educational Testing Service (TOEFL) or www.IELTS.org. Fairfield’s ETS code is 3390.

Submit transcripts and any other documents that cannot be uploaded to:

Fairfield University
Office of Graduate Admission
Kelley Center
1073 North Benson Road
Fairfield, CT 06824

INTERVIEW PROCESS

Applicants who meet the above criteria may be invited for an Admission interview.
MANDATORY IMMUNIZATIONS
Connecticut State law requires each full-time or matriculated student to provide proof of immunity or screening against measles, mumps, rubella, varicella (chicken pox), meningitis and tuberculosis. Certain exemptions based on age and housing status apply. Matriculating students are defined as those enrolled in a degree seeking program. More detailed information and the required downloadable forms are available online at [www.fairfield.edu/immunization](http://www.fairfield.edu/immunization). Completed forms should be submitted directly to the Student Health Center. Although this is not required to complete an application, you must provide proof of immunity/screening prior to course registration. Please consult your private health care provider to obtain the necessary immunizations. Questions may be directed to the Student Health Center: 203-254-4000 ext. 2241 or e-mail health@fairfield.edu.

TUITION/FINANCIAL AID
Academic Year 2018/19
Tuition: $1,000 per credit hour
Hospital/Lab Fee: $1,750
Books: Approximately $2,200

A graduate education can provide countless professional and personal rewards in the future. Many students need to look beyond their own financial resources or the resources of their employer for assistance. There are many ways to finance a graduate education, including graduate assistantships, federal direct loan programs and our Veterans Pride Program, which are all discussed at [www.fairfield.edu/gradfa](http://www.fairfield.edu/gradfa).

OFFICE OF FINANCIAL AID
Advisors from the Office of Financial Aid are committed to helping students find the options that best suit each of their needs. We encourage all Fairfield University graduate students to contact the Financial Aid office with any questions or to make an appointment to speak with a counselor.

FINANCIAL AID CONTACT INFORMATION
